

BOY SEEKS EDUCATION; ENLISTS WITH MARINES

Seeking a college education, Benjamin H. Dudley, Jr., 18, of 1807 E. 12th street, walked up to Sgt. Tippet F. Hamner, a member of the local marine corps recruiting station, and asked the sergeant to "sign him up" for a two-year enlistment in the marines.

Young Dudley had Thursday night for the large marine corps training station, Parris Island, S. C., where he will undergo a short preliminary training after which he will be transferred to Quantico, Va., where he will enter the U. S. Marine Corps Institute.

While at this institute, Dudley will have an opportunity to take up any studies he may desire. He will receive \$30 per month, with board, lodging, clothing and medical attention free while he is attending his classes, and he will not have to pay any tuition.

Dudley will also have an opportunity to see the world after he has finished his course, as the marines serve on both land and at sea.

RAILWAYS TAXED TO CARE FOR STUDENTS

The closing of the school year has resulted in a heavy passenger movement of students returning to their homes in the Southwest, according to H. D. Wilson, division passenger agent for the Missouri Pacific railroad. To meet demands of the students, an extra 12-section drawing room sleeper is being operated daily over the Sunshine special.

This movement will continue through the early part of June, reaching its crest with the adjournment of Ward-Belmont college, at Nashville, June 2; Sweet Briar college, at Sweet Briar, Va., June 3; Holla college, at Roanoke, Va., June 4; and other girls' schools in the East. A special train, operated as an extra section of the Sunshine special, will be required to carry the Texas and Louisiana students at Ward-Belmont college, and several extra sleepers will be required for students of the other schools.

SOCIETY CLUBDOM

Newsboys' Club.

The regular meeting of the Newsboys' club will be held Saturday evening at the clubrooms on Adams avenue and Second street.

An unusually interesting program has been planned to celebrate the opening of the library, which has been so generously contributed to by the public. Mr. Johnston, of the Circuit library, is devoting much of his time in regulating the library and getting things adjusted so that the boys can take charge and manage it themselves.

The drive for new members is creating much interest among the boys, and they are all asked to bring new members and remember there is going to be lots of ice cream and a general good time.

The chairman of the music committee has arranged a splendid program, which will be rendered by Mrs. C. P. J. Moore, Miss Martin Pentress, Mr. George Bone and Mrs. Alida Black. The ladies appreciate the kindness of the Witzmann music house in putting the piano in order and giving them the use of a victrola.

Simple Way to End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find all itching, itching, digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.
